

Chunked data processing in Cocoa

you can't taste if don't chew

```
[NSData dataWithContentsOfURL:url]
```

```
[data bytes]
```

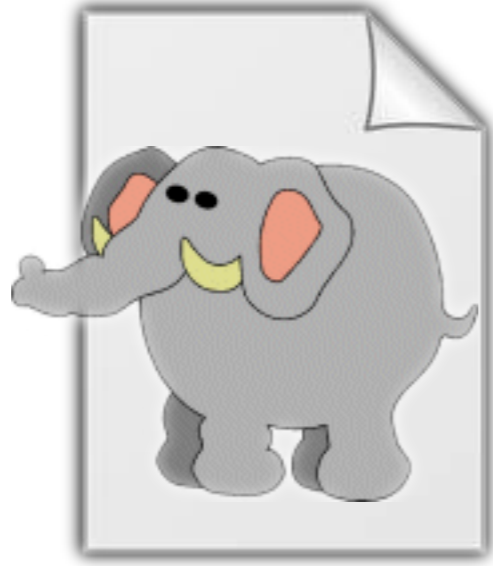

```
[NSString stringWithContentsOfFile:path encoding:NSUTF8StringEncoding error:nil]
```

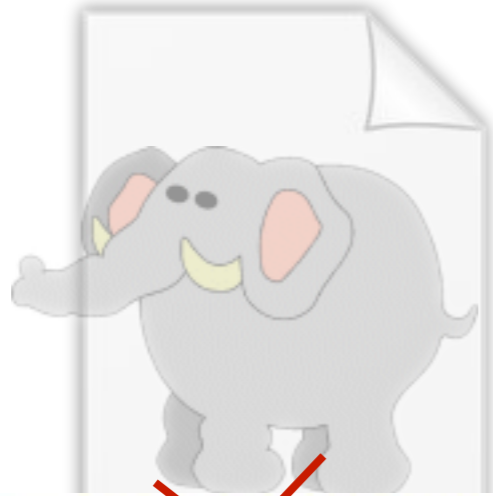

```
[NSDictionary dictionaryWithContentsOfURL:url]
```

```
[request setHTTPBody:data]
```

```
[NSURLConnection sendSynchronousRequest:request returningResponse:nil error:nil]
```

```
[NSScanner scannerWithString:string]
```

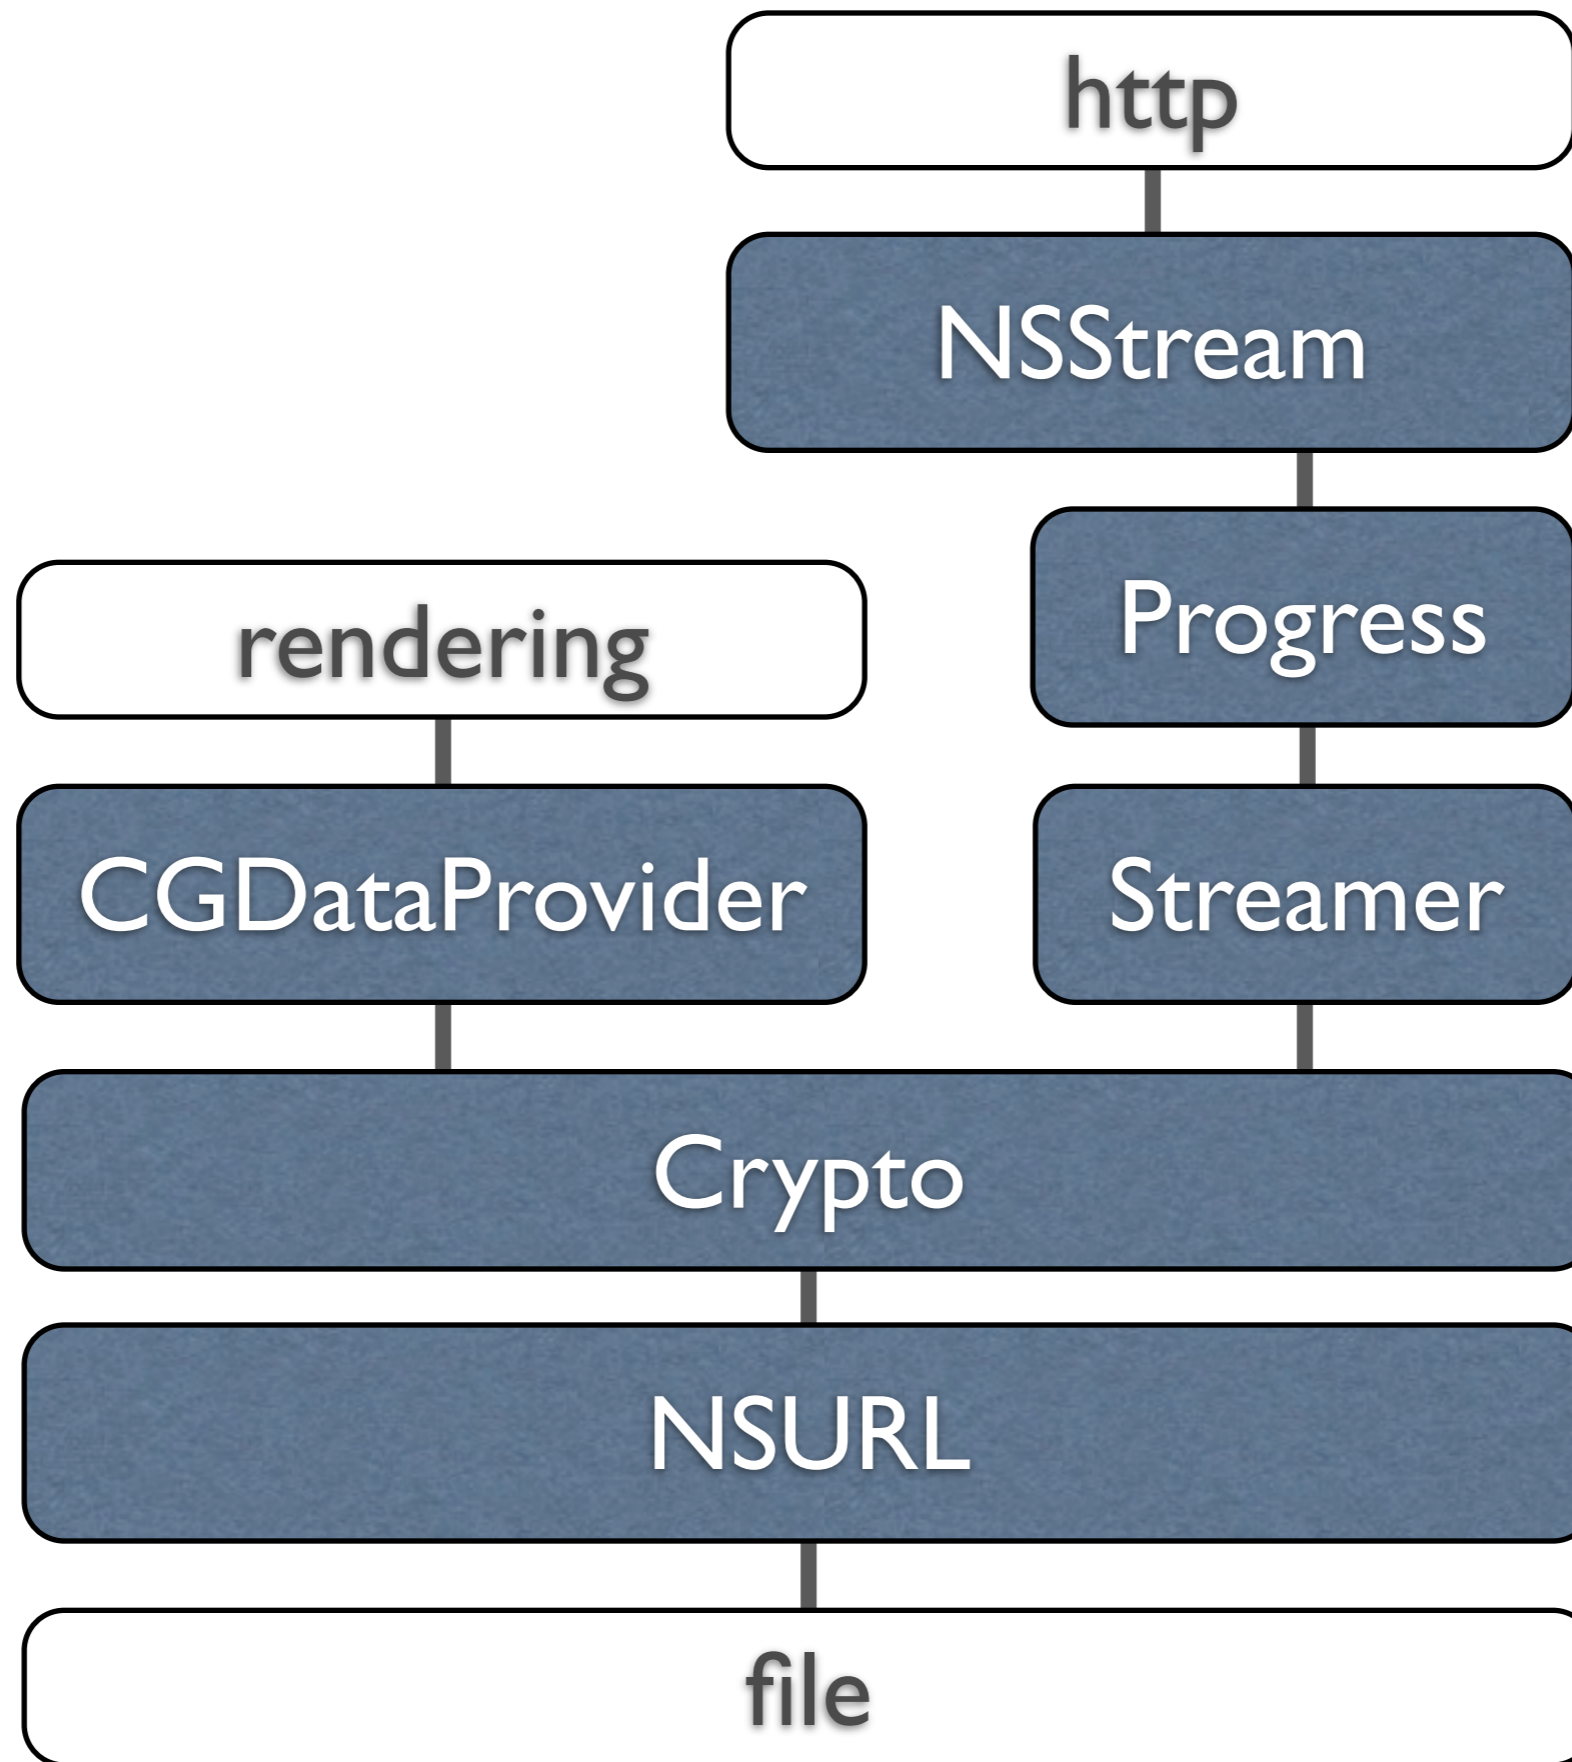

~~[NSData dataWithContentsOfURL:url]~~

~~[data bytes]~~

~~[request setHTTPBody:data]~~

Sources

```
[[NWIONSStream alloc] initWithInputURL:url]
```

Filters

```
[[NWIOLogStream alloc] initWithStream:stream]
```

Transforms

```
[[NWIODeflateStream alloc] initWithStream:stream]
```

Extracts

```
[[NWIODigestStream alloc] initWithStream:stream]
```
